## We are hiring

Position	Major	Job Description	Languages
Product Design Engineer	Mechanical engineering, mold making, proficiency in 2D/3D design software such as CERO/SOLIDWORKS.	<ol style="list-style-type: none"> <li>1. Designing new product mechanisms</li> <li>2. Developing molds for mechanical parts</li> <li>3. Correspondence related to new products and product trials with NPI</li> <li>4. Assembling products, troubleshooting mechanisms, and analyzing anomalies</li> <li>5. Answering MP's questions</li> <li>6. Managing Vietnamese suppliers</li> </ol>	Vietnamese, basic conversational Chinese/English.
ODT Engineer	Electrical industry, Electronics industry	<ol style="list-style-type: none"> <li>1. Discuss with the client the design of the new machinery testing (test plan, rate, test method, tool structure design).</li> <li>2. Report on the analysis and improvement of abnormal test results.</li> <li>3. Test and verify, and propose improvement measures to increase the test pass rate and efficiency.</li> </ol>	Proficient in Chinese/English
Operations Engineer	IT	<ol style="list-style-type: none"> <li>1. Managing and operating IT infrastructure including the main server room/secondary server rooms.</li> <li>2. Maintaining and installing network racks.</li> <li>3. Maintaining good communication and cooperation with local IT service providers.</li> <li>4. Deploying and maintaining IP camera systems.</li> </ol>	Proficient in Chinese
Project Management Engineer	Electrical industry, Electronics industry	<ol style="list-style-type: none"> <li>1. Monitor project progress to ensure the project proceeds according to plan and meets customer requirements.</li> <li>2. Consolidate customer needs, update information promptly, and notify relevant departments of any changes.</li> <li>3. Support relevant departments in exchanging and coordinating solutions to problems arising during the design or trial production process.</li> <li>4. Manage project documentation: drawings, specifications, change requests, etc.</li> <li>5. Support communication with customers during work at PVN.</li> </ol>	Japanese JLPT N2
MTE PM	Engineering-related fields	<ol style="list-style-type: none"> <li>1. Coordinate with NPI requirements.</li> <li>2. Responsible for testing new manufacturing process (MTE) projects.</li> <li>3. Coordinate work with the R&amp;D department and the production workshop.</li> <li>4. Receive customer testing programs and ensure product quality.</li> </ol>	Proficient in Chinese/English
FA Failure Analysis Engineer	Engineering-related fields	<ol style="list-style-type: none"> <li>1. Analyze the top functions of the production line and encourage relevant units to improve.</li> <li>2. Collect FA repair data and provide feedback to RD to write repair tools, helping the repair line improve productivity.</li> <li>3. Analyze EC functional defects related to reused parts and provide feedback to the production line regarding returned EC parts to consider whether the reuse process is effective, identify discrepancies, and reduce maintenance costs.</li> </ol>	Proficient in Chinese/English
Project Management	Management Majors	<ol style="list-style-type: none"> <li>1. Build the project team</li> <li>2. Synthesize the project initiation and schedule</li> <li>3. Understand the project readiness and progress</li> <li>4. Greet the project's corresponding clients</li> <li>5. Plan evaluations according to the client's normal needs</li> </ol>	Proficient in Chinese/English
Automation Engineering	Software Development	<ol style="list-style-type: none"> <li>1. Assist engineers in completing visual program evaluations.</li> <li>2. Assist engineers in completing AOI equipment testing and handling production anomalies.</li> <li>3. Complete daily equipment reports and preliminary analysis.</li> <li>4. Assist engineers in completing module functional testing.</li> </ol>	Proficient in Chinese/English
